ABOUT ABILITY

ABILITY is a 42-metre Codecasa, built in 2007 and refitted in 2023, based in Athens year-round. She sleeps eleven across five cabins — four doubles and a twin — with a crew of eight.

Eight crew for eleven guests is close to one-to-one, and it is the most consequential number on this page. At 42 metres the difference between six crew and eight is not the yacht, it is the service: the pace at which meals arrive, whether the tender is always manned, whether the boat is reset while you are ashore.

Codecasa is a Viareggio yard with a long line of steel and aluminium displacement yachts behind it, and ABILITY reflects that lineage: black hull and superstructure against a bright white interior of gloss wood panelling and teak, a contrast that is unusual on a Greek charter fleet and photographs unusually well.

The main salon is arranged with U-shaped seating on both sides — two distinct social areas rather than one open room, which matters when eleven guests want to split into groups without anyone retreating to a cabin. Outside: a flybridge, aft main deck and bow area, each with sun pads, seating and dining, plus a swim platform and beach club at water level.

Her performance sets her apart. She is a fast planing yacht — an aluminium hull driven by three 2,400 hp MTU engines through waterjets — and cruises at 24.5 knots, with close to 29 available. For a 42-metre yacht that is genuinely quick: most boats her size cruise at half that. The reserve is not a party trick. It turns a weather window into a reachable one, brings a distant island back within an afternoon, and lets a late-joining guest be collected without reshaping the week — at a fuel cost drawn from the APA, so it is speed held for when it matters rather than the everyday pace. Her 1.4-metre draft is unusually shallow for the length, which opens the shelved bays on the leeward side of the Cyclades that deeper boats have to stand off from.

TECHNICAL SPECIFICATIONS

Builder	Codecasa	Cabin config	4 Double Cabins, 1 Twin Cabins
Model	41S	Crew	8
Type	power	Cruising speed	24.5 kn
LOA	42 m	Max speed	28.8 kn
Beam	8 m	Fuel consumption	700
Draft	1.4 m	Flag	MT
GRT	286	Hull material	Aluminium
Year built / refit	2007 / 2023	Hull config	Planing
Guests sleeping	11	Engine type	3 x MTU 16V 2000 M93, 2,400 hp
Guests cruising	11	Engines	3 x MTU 16V 2000 M93, 2,400 hp
Cabins	5	Location	Athens, Greece
