## ABOUT JULY

JULY is a 20.4-meter motor yacht built by Aicon S.P.A.Yachts in 2009 and refreshed with a comprehensive 2023 refit, positioning her as a thoughtfully maintained vessel ready for discerning charterers. Measuring 67 feet with a beam of 5.3 meters, she combines elegant proportions with the practical efficiency that defines the Aicon brand—a builder recognized for delivering well-appointed cruising motor yachts with strong emphasis on usable space and seaworthiness.

The interior reflects understated sophistication, with light woods and carefully selected fabrics establishing a serene, welcoming atmosphere throughout her four cabins. The layout comprises two double cabins and two twin cabins, thoughtfully distributed to maximize privacy and comfort for up to eight guests. The main saloon serves as the social heart, offering generous sightlines and entertainment options ideal for those occasions when cruising conditions invite gathering indoors. Four cabin configurations ensure flexible accommodation for families, couples, and mixed groups.

Her outdoor living spaces exemplify the yacht's appeal for Mediterranean cruising. The aft deck flows naturally from the main saloon and provides an inviting platform for al fresco dining and relaxation. The sundeck, accessed via the flybridge, offers unobstructed views of passing landscapes, while built-in amenities including a BBQ and refrigeration make casual entertaining effortless. A shallow draft of 1.5 meters affords access to secluded bays and anchorages across Greece and the East Mediterranean.

Propulsion comes from twin MAN V12 engines delivering 1,224 horsepower, providing a 22-knot cruising speed and a fuel consumption of approximately 380 liters per hour—efficient economics for extended exploration. A Yanmar 20kw generator ensures reliable power for all onboard systems and creature comforts. Onboard amenities include air conditioning, WiFi connectivity, and a comprehensive water toy collection: a 3.8-meter tender with Suzuki 40hp outboard, water skis for both adults and children, SUP boards, canoe tubes, and full snorkeling equipment.

Based in Athens, JULY is ideally positioned for comprehensive exploration of the Aegean and Ionian Islands, the Saronic Gulf, and beyond into the broader East Mediterranean. Her professional crew of three provides attentive service while respecting the relaxed, intimate atmosphere many charterers seek. Available for JULY charter and other peak-season periods at €16,000–€18,000 per week plus expenses, JULY represents accessible luxury for those seeking a well-maintained, purpose-built platform for Greek island discovery.
