ABOUT MILGAUSS

MILGAUSS is a sophisticated 25.4-metre motor yacht built in 2008 by the renowned Italian shipyard Admiral Yachts and comprehensively refitted in 2023. Designed with an aluminium planing hull by Admiral Engineering, she combines performance and elegance in a package ideal for discerning charterers exploring the Mediterranean. Her thoughtful design prioritises both comfort and seamless cruising, delivering a genuine sense of luxury within a perfectly manageable size.

The interior showcases contemporary styling that feels both spacious and inviting. The main salon features an open-plan layout with generous seating aft, complemented by a separate dining area forward. Panoramic windows flood the space with natural light, while warm redwood panelling and neutral furnishings create an understated, elegant atmosphere. The master cabin spans the full beam and includes a walk-in wardrobe, while three additional cabins—one VIP, two twins, and one convertible—accommodate up to nine guests across four cabins with dedicated crew quarters for a professional four-person crew.

On deck, MILGAUSS excels at creating outdoor living spaces. Twin alfresco dining areas, generous sunpads, and an extended swim platform with broad retractable design encourage relaxed entertaining and water access. Her maximum speed of 26 knots ensures efficient repositioning between destinations, while her extended tender and comprehensive water toy collection—including a Seabob, jet ski, SUP boards, and tubes—make coastal exploration effortless.

Charter amenities reflect modern expectations: WiFi connectivity, full entertainment systems, and a professionally equipped galley support both relaxed family cruising and more formal entertaining. The 2023 refit ensures all mechanical and systems are current, allowing guests to focus entirely on the experience rather than operational concerns.

Based in Athens, MILGAUSS operates throughout the Greek islands and broader Mediterranean, with particular strength in the Cyclades, Ionian, and Dodecanese regions. She accommodates up to nine cruising guests and is available for charter from €34,000 to €39,000 per week. The MILGAUSS charter experience positions guests in the heart of Greece's most celebrated cruising grounds, supported by a seasoned professional crew dedicated to seamless service and memorable coastal exploration.
