## ABOUT SHOOTING STAR

SHOOTING STAR is a 31.1-metre motor yacht built in 2004 by the renowned Italian shipyard Cantieri di Pisa, which designed both her exterior and interior. This elegant vessel combines Italian craftsmanship with practical performance, offering a cruising speed of 22 knots and a maximum speed of 27 knots—ideal for efficiently exploring the Greek islands and surrounding Mediterranean waters from her home port of Athens.

The 2021 comprehensive refit has brought SHOOTING STAR to immaculate condition, with brand-new tenders and water sports equipment installed throughout. Her five-cabin layout accommodates up to 12 guests, comprising a master suite, VIP cabin, two double cabins, and a twin cabin, each fitted with air conditioning and entertainment systems including Samsung televisions. The thoughtful arrangement makes her equally suited for family groups or mixed-party charters seeking flexibility in accommodation.

The yacht's standout feature is her exceptional outdoor living design. The expansive top sundeck offers multiple social zones: a comfortable lounge area with bar and entertainment centre, generous alfresco dining for all guests, and an open-air barbecue setup. Forward areas provide additional seating options for those seeking quieter moments, while the aft swimming platform facilitates direct water access. Perhaps most distinctive is her beach club concept—a dedicated waterside relaxation area that encourages seamless entertaining between boat and sea.

Onboard comfort is enhanced by advanced stabilization systems that provide steady motion both at anchor and underway, ensuring guests remain comfortable throughout their voyage. The GRP hull and superstructure deliver excellent efficiency and durability. A professional crew of six manages all service details, allowing guests to focus entirely on relaxation and exploration.

The toy collection is comprehensive, featuring an AB JET Tender 430 XP, Yamaha jet ski, Lift efoil, Seabob units, paddle boards, waterskis, wakeboards, and towed inflatables—providing abundant options for water enthusiasts. An L-Acoustics sound system with Crestron control ensures outstanding audio throughout the yacht.

SHOOTING STAR charter rates begin at €68,500 per week during shoulder seasons, with rates extending to €78,500 in summer months. She is ideally positioned for exploring the East Mediterranean, particularly the Greek islands and Aegean region. This well-maintained Cantieri di Pisa yacht delivers a distinctive combination of outdoor-focused design, modern amenities, and reliable performance for discerning guests seeking an memorable charter experience.
